

The background of the entire page is a dark blue color. Overlaid on it are several abstract, angular shapes in a lighter shade of blue. These shapes vary in size and orientation, creating a sense of depth and movement. Some are sharp and angular, while others are more rounded and organic in form.

Gateway

Gateway is an intricate **cat's cradle** of barbed wire, in which the pricking of every metal thorn is precise and acute; it's the site of an elegant dissection of organizational identity. A **wake up** call for unappreciative, uncommunicative, heedless managers.

Layers of invention elide in a sparkingly reflexive work that aims not just to performance planning but to capture the essence of KPIs and their challenges.

Task achievement and relationship building come in for **merciless scrutiny**: knowledge hunger, crisis management, solutionizing, and social connectivity.

Small wonder: it's a hair-trigger existence, where allegiances change daily.

In less deft hands, this could all feel like so much **clever-clever** contrivance, but Infinity designers' heart **smack** in the seminar's centre and we ensure that you always hear it beating.

The biting alertness of individual and group activities, the earthed electricity of the design and the **jittery** fervor of the facilitators each lend their distinctive notes to the whole program.

Gateway is a stringent **antidote** to today's vapid egotistical obsession.

Memories, upshots and concealments vibrate beneath the seemingly simplest exchange, and time periods collide and coalesce as the end of the workshop draws closer culminating on a dazzling **future-shaping** bustle.

Gateway 12 years of **upturned** magic.
